*"The Heartbeat for Life in
West Georgia!"*

Our "Declaration of Independence" declares:
IN CONGRESS, JULY 4, 1776
The unanimous Declaration of the thirteen United states of America

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are Life, Liberty and the pursuit of Happiness."

*"Life ... Liberty ... and the Pursuit of Happiness!"
Without meeting the first requirement in giving Life, then Liberty and the Pursuit of Happiness is unattainable!*

Some Life questions that you may have never given thought to:

- * Abortion is legal in all 9 months of pregnancy!
- * Since the 1973 Roe v Wade decision, there has been 60,000,000 babies aborted in the USA! (These are the amounts that have been recorded!)
- * Babies aborted since '73 is 44 times those killed in all the wars-conflicts since the Revolutionary War!
- * A baby's heart beat starts at 3-4 weeks after conception!
- * All major organs are in place in a baby's body at 10-12 weeks! 12% of all abortions occur after 12 weeks.
- * In a baby's nervous system, raw pain is felt 3X more than an adult at 14-16 weeks.
- * At 60MM abortions since 1973, this would entail the combined current populations of:
LA., MS., AL., GA., TN., NC. SC., VA., KY, OK, AR, W.VA.
- * In the 2 minutes it took you to read this article, over 5 babies have been aborted in America. For more information on Life issue or to make a tax deductible contribution, feel free to call or write to:

Hello West Georgia Right to Life Pro-Lifers!

Praying this letter finds you and yours safe and healthy!

Wow...what a hectic but thankful last 3 months it's been. The Dobbs case, the overturning of Roe vs. Wade and it being sent back to the states, the Heartbeat bill became law in Georgia (We are praying and working hard to make ALL ABORTIONS IN GA ILLEGAL, WITH NO EXCEPTIONS FOR RAPE OR INCEST). It's because of your continued prayers, letters and emails of encouragement, financial giving and consistent educational outreach to make abortion in GA illegal, WE ARE WINNING! Though overturning Roe vs. Wade was a great victory, it's just one of many battles that we will continually have to fight in the "War For Life!"

Are you aware, that chemical abortions have now increased abortion rates in America by 50%? These 650k annual chemical abortions are UP AND ABOVE the current levels of over 1M surgical abortions performed annually in the USA!

The first pill taken at 8-10 weeks is Mifepristone, or called Mifeprex or RU 486. This pill blocks the progesterone needed by the baby in the womb for life, blocks the preborn from having the nutrients needed for survival and dies. The second pill, Misoprostol, taken 24-48 hours later works to empty the uterus by causing cramping and bleeding, similar to an early miscarriage! But there are now more and more cases where chemical abortions are being REVERSED if caught in the early stages by giving the patient high doses of progesterone. The procedure is called "abortion pill reversal". Arkansas, Idaho, South Dakota and Utah now require doctors who provide medical abortions must tell their patients that "reversal is an option". There is now a network called the "Abortion Pill Rescue Network", a nationwide group of clinicians who provide this reversal treatment! Backed by Heartbeat International, an anti-abortion rights group, includes more than 500 clinicians willing to prescribe progesterone to patients who have taken the initial pill needed in the process. More information can be found from clinical writings by Dr. Delgado, a pro-life physician and initiator of the reversal procedure at "ANNALS OF PHARMACOTHERAPY" and also in the journal called "ISSUES IN LAW AND MEDICINE". As you can see by information above, R vs W was a **great battle win....in the war for life...**but with the strength, wisdom and direction of our loving God, we can some day soon state that abortion in Georgia and the USA is completely illegal! That should be the prayer of each biblical disciple of Christ!

State Pro-Life Updates SEE ENCLOSED StarNews OP-ED PERSONHOOD

GRTL: The Leader in the Personhood Movement. Personhood has fast-became the battle cry of the pro-life movement over the last decade!

What is "Personhood?" "Each individual human life has an "unalienable" right to life, from its earliest biological beginning to natural death." This right would be guaranteed as is penned through the writings found in the 14th Amendment of our Constitution under the "just due clause" and also stated in our Declaration of Independence.

Article 14: "No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty or property, without due process of the law; nor deny to any person within its jurisdiction the equal protection of the laws"

What is an unalienable right? "A right conferred by God, a right that cannot be abridged by government because it does not originate with a lesser authority!" Our founding fathers who drafted and penned the Constitution and Declaration of Independence nailed it some 244 years ago...**a person's right to life**, no matter its Size, Location, Environment or Dependence (SLED), should NOT have its "right to life" taken away from him or her!

National Pro-Life Updates

• August 24, 2002 Memphis, Tennessee (LifeSiteNews) – The remaining three abortion facilities in Tennessee will close within the next week as the state's complete ban on abortions goes into effect. The state's ban on abortions once a heartbeat can be detected led Planned Parenthood in June to stop committing abortions in the state.

• September 15, 2022 (LifeSiteNews) Last week, in one of the darkest moments of his abysmal presidency, Joe Biden made it clearer than ever: The Democratic Party is coming for Christians and anyone else who contradicts the left's radical abortion and LGBT agendas. In a primetime speech on Thursday at Philadelphia's Independence Hall, Biden doubled down on Democrats' latest attack line, declaring his political opponents an intolerable "threat" to America. "Donald Trump and the MAGA Republicans represent an extremism that threatens the very foundations of our republic," Biden declared, surrounded by Marines in front of a blood-red background, weeks after his administration raided the home of his top rival. "MAGA Republicans do not respect the Constitution. They do not believe in the rule of law. They do not recognize the will of the people," Biden continued, adding that "they fan the flames of political violence that are a threat to our personal rights, to the pursuit of justice, to the rule of law, to the very soul of this country."

• **Federal law against interstate mailing of abortion pills undermines leftist plans to evade pro-life laws.** A federal law which criminalizes mailing abortion pills can now be enforced thanks to the overturn of Roe v. Wade, throwing a wrench in the Biden administration's abortion agenda.

(LifeSiteNews) – When the U.S. Supreme Court overturned Roe v. Wade this June, it did not just allow for the enforcement of old and new state pro-life laws across the country; it also reactivated federal prohibitions on the mailing of abortion-inducing drugs that many abortion activists have highlighted as a way to get around the new legal landscape.

18 United States Code § 1461 makes it a crime punishable by up to five years in prison (ten for repeat offenses) to "knowingly [use] the mails for the mailing, carriage in the mails, or delivery" of certain "indecent" materials "of a character tending to incite arson, murder, or assassination," including any "article, instrument, substance, drug, medicine, or thing which is advertised or described in a manner calculated to lead another to use or apply it for producing abortion," as well as information on how to obtain the same.

18 USC § 1462 imposes similar penalties on "bring[ing] into the United States [...] for carriage in interstate or foreign commerce" any "drug, medicine, article, or thing designed, adapted, or intended for producing abortion," or for any indecent or immoral use; or any written or printed card, letter, circular, book, pamphlet, advertisement, or notice of any kind giving information, directly or indirectly, where, how, or of whom, or by what means any of such mentioned articles, matters, or things may be obtained or made."

With the fall of Roe suddenly making surgical abortions illegal in many states, abortion activists have suggested mailing abortion pills from pro-abortion states to pro-life ones as a way to circumvent abortion bans. In June, U.S. Secretary of Health & Human Services Xavier Becerra declared it a "national imperative" to protect and increase "access" to abortion pills.

But the aforementioned federal statutes complicate those plans by making such mailings illegal regardless of the state in which they originate. While the Biden administration is unlikely to enforce the law, anyone who violates it would still be risking potential prosecution under a future administration.
