Without meeting the first requirement in giving Life, then Liberty and the Pursuit of Happiness is unattainable!*

Some Life questions that you may have never given thought to:

- \* Abortion is legal in all 9 months of pregnancy!
- \* Since the 1973 Roe v Wade decision, there has been 60,000,000 babies aborted in the USA! (These are the amounts that have been recorded!)
- \* Babies aborted since '73 is 44 times those killed in all the wars-conflicts since the Revolutionary War!
- \* A baby's heart beat starts at 3-4 weeks after conception!
- \* All major organs are in place in a baby's body at 10-12 weeks! 12% of all abortions occur after 12 weeks.
- \* In a baby's nervous system, raw pain is felt 3X more than an adult at 14-16 weeks.
- \* At 60MM abortions since 1973, this would entail the combined current populations of:  
LA., MS., AL., GA., TN., NC. SC., VA., KY, OK, AR, W.VA.
- \* In the 2 minutes it took you to read this article, over 5 babies have been aborted in America. For more information on Life issue or to make a tax deductible contribution, feel free to call or write to:

### Personhood of the Elderly

The percentage of our population aged 65 and older was 17 percent in 2020, 1 out of every 6 individuals living in America were over 65 according to a report from the Administration on Aging. That is up from 9 percent in 1960. By 2030 it’s projected to be 21 percent. Now that I fit into this “baby-boomer age group” (born 1946 through 1964), I am pleased in many respects that we as a population are living longer! Sadly, I’m afraid how our society deals with older people and has become a travesty in America!

**We are noticing a trend-devaluing the Personhood of the Elderly!**

- **U.S. Supreme Court protects access to abortion pill mifepristone!** : The pro-abortion ruling, which was not explained, was decided in a 7-2 vote, with Justices Clarence Thomas and Samuel Alito being the dissenting voices. Despite widespread accessibility, evidence shows that abortion pills carry specific risks for the mothers who take them (on top of being lethal to their preborn children), especially when the standards for taking them continue to be relaxed.
- **Michigan Governor Gretchen Whitmer repeals Michigan’s 1931 abortion ban, calls protecting the unborn ‘sickening’:** Michigan is ensuring abortion-on-demand will remain legal for the foreseeable future.
- **West Virginia governor signs law supporting pro-life pregnancy centers:** West Virginia is taking steps to promote healthy and prosperous families.
- **Mississippi Gov. Tate Reeves signs slate of new laws to support women who choose life:** ‘This is our new pro-life agenda.’
